“ My father was a careing man. He created many great memories, of which we all will smile upon when feeling down. There were times where we would sit around and talk about those good times. I cant really share many of those times. This is only because I was to young to remember. The best part of this is to sit back and enjoy seeing my father laugh and smile. I have some to hold in my heart as well. My father was a very smart man. Him and I would talk about history for hours. I learnd so much. If I can sit with him just for a few more hours again... I have a great sense of relief that he is no longer in pain. Daddy its your turn to rest. You have been through so much. I want to say thank you for being my father. Thank you for showing me how to be a good individual. R.I.P dad look over us time to time to make sure we are ok. I love you Dad I love you so so so much you are now at peace
