“ *Donald Sataline and Family,*

I wanted to send you this message to tell you how sorry I was to have just read today about the passing of your mom. Since my children are now 26, 24 and 21 and have lives and careers of their own, my husband and I recently moved to Augusta, Georgia about 1 month ago to escape the CT cold winters and to enjoy the warmth and hospitality of the south and I just read her name via the internet. I have so many memories of her and your dad, having lived right next door to them for all those years. They are both in my thoughts and prayers and I am sure they have met up with my parents and are "catching up". Take care and my prayers to you at this time of sorrow.....Laurie Kramer Jordan
