“ Mom, I wrote you a letter a year ago today on how much we missed and now another year has come and and we miss you even more. I always kept this letter knowing that I wanted you to know how we felt.

I year ago February 9, 2006, Billy and I had to let you go, but before we could say good-bye we needed you to know how much we loved you and appreciated everything you did for us, but most of all given up your life for us and always given us your love. With a tear in your eye it was the hardest thing we ever had to do but let you know that it was okay to say goodbye for now. Knowing that this would be the last time that we would all be together on this earth. We knew deep down inside we would have wanted you in our life forever, but knew that you had suffered for a long time and it would have been selfish of us to make you suffer any longer. Even though you're not physically with us you're always in our thoughts and prayers. Mom there isn't one day that goes by that we don't think of you and realize how much we miss you and how lonely it is without you. Even though you have thought us so many things I could still hear you in my mind guiding us and watching over us, please always keep us in your presence forever and one day we will be all together as a family again. Mom I wanted you to know that you were the perfect mother and were so glad that you were our.

Today is February 9, 2007 it's been two years and we miss you even more. Things that we took for granted we wish that we could have them back again. Billy had mentioned that you would have been happy to see the early spring. I know you loved sitting on your porch and watching your flowers start to bloom. Most of all I miss giving you a kiss and letting you know if you need me that I'll be there. Billy and I are not the only ones that miss you so does Rudy. There are days that Rudy will be by your bedroom door or if he sneaks in he looks around as if he is looking for you. I do believe he thinks that we're hiding you, when he comes up to my room he'll start sniffing your clothes. I know he was one of your favorites and know he misses you too. We both love you and you'll always be in our hearts. I want to

thank you and Dad for giving me a brother, without him we would not have anyone. Thank-you for being our Mom.

We love you. Debbie, Billy, Maggie, Max, Alice, Rudy, Baby and Bear.

“ Auntie Rita -

I thought of you today and hoping that wherever you are, that you are enjoying a very painfree afterlife as you had suffered greatly the last 5 months on this earth. What a great comfort it must have been to have had Debbie and Billy right at your side the whole time. I know it was challenging for all three of you, but as Debbie and Billy said, you are their mom and there's nothing else they would rather do then to care for you at your most needed time. I know that they would have given you any part of themselves in order to extend your life even for one day longer...they both did so much to ensure you were getting the benefits of the best options available.

Though I couldn't bring the whole family, I was very lucky to have had the chance to see you in December to tell you just how much you meant to me. I'm just sorry that I had only one of two days to see you as I started getting a cold that I didn't want to pass to you, Debbie or Billy.

One of your 'granddaughters' certainly remembers you Ava was too young as Hannah just loved seeing you and your extended furry, meowing family a few Christmas' ago. In fact, when I got home from saying farewell to you in Feb, Hannah asked if you 'were fixed' as I had mentioned upon leaving that you were very very sick she couldn't understand the facts. So, I told her you were much better now and that you were visiting your mom and dad, husband, and other family and friends in a very special place. She was all smiles at that...and said ""Oh, good. She must be very happy now". I think she is right.

Be thinking of you often...Love you now and always. Cyndi

“ Mom, theirs not one day that goes by that I don't miss you or have a tear in my eye. My life has changed and theirs days I feel so lost without you. If I could have one wish, my wish would be that I want you back in our lives. Remember that you belonged to us and I don't want anyone else to have you. The worse part about you not being here is that I miss not seeing you, talking with you and giving you a kiss and letting you know how much that I loved you. I loved you so much that it hurts, you were the best mother that a daughter could have. I guess I need to remember all the happy moments that we had togetheir and thank god that I had you for so many years, but I would have loved to have you forever.

So Mom please talk to me and guide me to make the right decissions and give me a sign that your still here with us. I'll never stop loving you.

Love, Debbie

“ Rita,
It is very hard for this "baby brother" to put into words how I feel, but as I think back, I realize once again that you were so much more to me than "just a sister." You were my surrogate mother, caretaker, comforter and friend. You were there to add to my joy when I married' rejoiced with Linda and me when our children were born and again when their children were born. Without you, a part of me is missing but I take comfort in the fact that I know you are now pain-free and at peace. Thank you, Rita, for all you did for me. I will miss you; will always love you and will be eternally grateful to have had you in my life.
