“ *My precious Noni. I miss you so much. I can't imagine the future without your face in it. Your smile could brighten a room, and your laugh was contagious. You were more like my sister than my niece, and I loved you ever second for it. We grew up together and lived hardships like each other. I will never forget all those moment you put a smile on your face to brighten the room even when things weren't looking that great. You will always have a very special place in my heart and I will always cherish the memories I have of you. You are missed and I only wish that we could have had more time together in this world. I promise I will be there for your mother and sister. But I know you'll be there with me all along taking care of them and watching over them as well.*

With all my love, until we meet again, your Auntie Bev.
